LJ EXCEL™

We have been developing our LJ Excel™ fabric for the last twenty eight years. LJ Excel™ is our number one fabric! It has more active properties than any other fabric! It is a high performance fabric exclusive to Lorna Jane offering you:

- Moisture wicking & quick drying
- Shrink & fade resistant
- The feeling of cotton with the benefits of advanced synthetic fibre technology
- Maximum breathability
- 4-way stretch for freedom of movement
- Compressive properties for ultimate support & to aid in muscle recovery

LJ EXCEL™ MESH

LJ EXCEL™ mesh is designed to keep you cool and dry whilst remaining lightweight, moisture wicking and comfortable. It's unique construction exposes the skin to air flow creating maximum evaporation and cooling of the body.

LJ EXCEL™ ACTIVE

LJ EXCEL™ Active is an exclusive range of lighter, performance-based fabrics that don't compromise on coverage but have a lighter feel on the skin. Perfect for when the weather heats up or for hot yoga.

BARE MINIMUM

The Bare Minimum range is our lightest fabric yet; it uses a specialised lightweight yarn to create a featherweight fabric with maximum stretch and opacity. It's peached finish is super soft against the skin, and is moisture wicking to keep you cool and dry.

NOTHING 2 C HERE™

Our trademarked Nothing 2 See Here™ range is designed with proprietary light-blocking interlock technology that assures maximum coverage. This innovative technology ensures zero transparency, so you can downward dog and deadlift with nothing but confidence.

COOL TOUCH

Cool Touch is a performance range with a cool, sleek finish. It's glossy finish doesn't only look athletic, but it's cool touch feel will wick moisture away from the body leaving the skin dry during workouts. This fabric will ensure you feel comfortable from warm up to cool down.

SEAMLESS

Our superior LJ seamless technology is a lightweight, 8-way stretch fabric which will support you in any workout. This fabric is super soft and has cross channeled fibres that deliver maximum breathability and movement, without compromising on coverage.
